ENRIQUE FRANCISCO ALEMANY MARTINEZ

Senior Graphics / Core Programmer

46980, Valencia Spain | +34 680 769 630 | enrique.alemany@pm.me

SUMMARY

Graphics Programmer with over 7 years of experience in real-time rendering and shader development. I specialize in low-level optimization across DirectX and Vulkan, with a focus on solving complex GPU bottlenecks and improving engine performance. My background includes building artist-facing tools and delivering rendering features.
Including development of graphics profiling and debugging tools, optimizing rendering pipelines, extending and modifying modern Game Engines.

SKILLS

Engines: Unreal Engine, Unity, Warscape (Creative Assembly) | **APIs:** DirectX 11, DirectX 12, Vulkan, HLSL, GLSL
Tools: Nsight, Renderdoc, Pix, Razor | **Expertise:** GPU profiling, Shader optimization, In-Engine Tools, Cross-team collaboration

EXPERIENCE

Senior Core & Rendering Engineer **11/2025 - Present**
31st Union Valencia (Hybrid)
- Nanite performance.
- Unreal engine 5 PSO hitches tooling and fixes.
- Rendering cross team support.
- Minspec work

Senior Graphics Programmer **04/2025 - 08/2025**
CodeDev (The unreal guys), Valencia, Spain
- Assistance with performance in Unreal Engine 5.
- GPU crashes, debugging, and fixes; Aftermath integration.
- Console GPU performance analysis.

Senior Graphics & Tools Engineer **02/2025 - 04/2025**
Mountaintop Studios, Valencia, Spain
- Optimize compute shaders for our ink rendering pipeline.
- Working on console optimizations and min-spec PC compatibilities.
- Collaboration with artists to improve shader workflows and General Game Engine Optimizations.

Graphics & Tools Engineer **08/2022 - 02/2025**
Mountaintop Studios, Valencia, Spain
- Developed a Livelink tool for Blender to communicate with our inking tool, allowing real-time Blender editing to be reflected in Unreal Engine.
- Focus on compute shader optimization and engine performance; providing new features for artists.

Graphics Programmer **04/2021 - 08/2022**
Creative Assembly, Horsham, UK
- Primarily focused on GPGPU programming and VFX system expansion.
- Added a new ribbon system, fully GPU-driven from scratch.
- Collaborating with VFX team to develop new features, enhance usability, and expand debugging.

Associate Graphics Programmer **04/2020 - 04/2021**
Creative Assembly, Horsham, UK
- Implemented modern real-time VFX rendering techniques and maintained the VFX system.
- Collaborating with the VFX team to enhance engine performance and capabilities.

Trainee Graphics Programmer **06/2019 - 04/2020**

Creative Assembly, Horsham, UK

- Gaining hands-on experience in engine design and real-world development processes.
- Collaborating across disciplines to align on shared visual goals.

EDUCATION

BSc Computer Science For Games (Top Mark) **06/2019**

Sheffield Hallam University, Sheffield, UK

HND Computing & Systems Development For Games **06/2018**

ESAT, Valencia, Spain

PROJECTS

Mafia: The Old Country, Spectre Divide, Total War: Warhammer III, Total War: Three Kingdoms, A Total War Saga: Troy
